Support Services Pathway
Knowledge and Skill Statements

The Pathway Knowledge and Skills Chart describes what all/most learners/workers need to know and be able to do to demonstrate competence within a career pathway. Following the pathway description, there are four sets of knowledge and skill expectations:

A. Foundational Academic Expectations
B. Essential Knowledge and Skills
C. Cluster (Foundation) Knowledge and Skills
D. Pathway Knowledge and Skills

PATHWAY DESCRIPTION

Support Services Pathway: Careers in the Support Services pathway provide a therapeutic environment for the delivery of health care. Support Services offers a full range of career opportunities from entry level to management, including technical and professional careers.

A. FOUNDATIONAL ACADEMIC EXPECTATIONS

All secondary students should meet their state’s academic standards. All Essential Cluster and Pathway Knowledge and Skills are predicated on the assumption that foundational academic skills have been attained. Some knowledge and skill statements will further define critical linkages and applications of academics in the cluster and/or pathway.

B. ESSENTIAL KNOWLEDGE AND SKILLS

The following Essential Knowledge and Skill statements apply to careers in all clusters and pathways. Persons preparing for careers in this pathway should be able to demonstrate these skills in the context of this cluster and pathway.

HLC05.01.03 Health care workers will understand the existing and potential hazards to clients, co-workers, and self. They will prevent injury or illness through safe work practices and follow health and safety policies and procedures.

Sample Indicators

Diagram the interdependence of health care professions within a given health care delivery system and pertaining to the delivery of quality health care.

Design a system analysis process that evaluates the following outcomes; client satisfaction, productivity, cost effectiveness, and efficiency.

Evaluate the impact of enhanced technology on the health care delivery system.

HLC05.01.04 Explain the concept of system change as it applies to the health care environment.

Sample Indicators

Analyze the cause and effect on health care system change based on the influence of technology, epidemiology, bio-ethics, socio-economics, and various forms of complimentary (non-traditional) medicine.

HLC06

SAFETY, HEALTH AND ENVIRONMENTAL: Understand the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance. Follow organizational policies and procedures and contribute to continuous improvement in performance and compliance.

HLC06.01 Health care workers will understand the existing and potential hazards to clients, co-workers, and self. They will prevent injury or illness through safe work practices and follow health and safety policies and procedures.

Sample Indicators

HLC06.01.01 Explain infection control practices and procedures.

Practice infection control procedures.

Practice appropriate cleaning, disinfecting, and sterilizing processes.

Contrast medical and surgical asepsis.

HLC06.01.02 Employ personal safety practices.

Manage a personal exposure incident in compliance with OSHA regulations.

Apply principles of body mechanics and ergonomics.

Use personal protective equipment as appropriate to the environment.

HLC06.01.03 Use techniques to insure environmental safety.

Modify the environment to create safe working conditions.

Demonstrate methods of fire prevention in the health care setting.

Prevent accidents by using proper safety techniques.

Practice good housekeeping by maintaining a safe work environment.

HLC06.01.04 Identify common safety hazards.

Use Materials Safety Data Sheets (MSDS).

Adhere to hazardous labeling requirements.

Comply with safety signs, symbols, and labels.

Take appropriate action when observing a hazardous material problem.

Apply safety principles within given environment.

Handle hazardous chemicals commonly used in the health care environment in an appropriate manner.

HLC06.01.05 Use emergency procedures and protocols.

Interpret the evacuation plan for the health care setting.

Construct an emergency plan for a health care setting in response to a natural disaster or other emergency.
Follow the facility procedure when a fire is discovered.

HLC06.01.06 Describe healthy behaviors.

**Sample Indicators**
- Apply behaviors that promote health and wellness.
- Advocate available preventive health screening and examinations.
- Use practices that promote the prevention of disease and injury.
- Use appropriate safety practices as related to high-risk behaviors.
- Evaluate the validity of alternative health practices.
