The Pathway Knowledge and Skills Chart describes what all/most learners/workers need to know and be able to do to demonstrate competence within a career pathway. Following the pathway description, there are four sets of knowledge and skill expectations:

**PATHWAY DESCRIPTION**

*Production Pathway:* People with careers in production work on the shop floor making parts or assembling them. They work with machines, making or assembling electronic parts, constructing or assembling modular housing, performing welding jobs, or printing various materials.

**A. FOUNDATIONAL ACADEMIC EXPECTATIONS**

All secondary students should meet their state's academic standards. All Essential Cluster and Pathway Knowledge and Skills are predicated on the assumption that foundational academic skills have been attained. Some knowledge and skill statements will further define critical linkages and applications of academics in the cluster and/or pathway.

**B. ESSENTIAL KNOWLEDGE AND SKILLS**

The following Essential Knowledge and Skill statements apply to careers in all clusters and pathways. Persons preparing for careers in this pathway should be able to demonstrate these skills in the context of this cluster and pathway.

ESS09.09.03 Participate in relevant conferences, workshops, mentoring activities and in-service training to stay current with recent changes in the field.

Examine licensing, certification and credentialing requirements at the national, state and local levels to maintain compliance with industry requirements.

ESS09.10.01 Examine continuing education requirements related to licensing, certification, and credentialing requirements at the local, state and national levels for chosen occupation.

ESS09.10.02 Examine the procedures and paperwork involved in maintaining and updating licensure, certification and credentials for chosen occupation.

ESS09.10.03 Align ongoing licensing, certification and credentialing requirements to career plans and goals.

Examine employment opportunities in entrepreneurship to consider entrepreneurship as an option for career planning.

ESS09.11.01 Describe the opportunities for entrepreneurship in a given industry.

TECHNICAL SKILLS: Use of technical knowledge and skills required to pursue careers in all career cluster, including knowledge of design, operation, and maintenance of technological systems critical to the career cluster.

C. CLUSTER (FOUNDATION) KNOWLEDGE AND SKILLS
The following Cluster (Foundation) Knowledge and Skill statements apply to all careers in the Manufacturing Cluster. Persons preparing for careers in the Manufacturing Cluster should be able to demonstrate these skills in addition to those found on the Essential Knowledge and Skills Chart.

Cluster Topic MNC01 ACADEMIC FOUNDATIONS: Achieve additional academic knowledge and skills required to pursue the full range of career and postsecondary education opportunities within a career cluster.
No additional statements in this topic beyond those found in the Essential Knowledge and Skills Chart.

Cluster Topic MNC02 COMMUNICATIONS: Use oral and written communication skills in creating, expressing and interpreting information and ideas including technical terminology and information.
No additional statements in this topic beyond those found in the Essential Knowledge and Skills Chart.

Cluster Topic MNC03 PROBLEM-SOLVING AND CRITICAL THINKING: Solve problems using critical thinking skills (analyze, synthesize, and evaluate) independently and in teams. Solve problems using creativity and innovation.
No additional statements in this topic beyond those found in the Essential Knowledge and Skills Chart.

INFORMATION TECHNOLOGY APPLICATIONS: Use information technology tools specific to the career cluster to access, manage, integrate, and create information.

No additional statements in this topic beyond those found in the Essential Knowledge and Skills Chart.

Cluster Topic
MNC05

SYSTEMS: Understand roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment. Identify how key organizational systems affect organizational performance and the quality of products and services. Understand global context of industries and careers.

MNC05.01 Summarize and explain how manufacturing businesses operate to demonstrate an understanding of key functions within organizations in the industry.

MNC05.01.01 Identify the role and major functions of manufacturing businesses.

Sample Indicators
- Identify the mission, major internal functions and structure of manufacturing businesses.
- Identify the customers, suppliers, and stakeholders of manufacturing businesses, their roles, and how they relate.
- Explain the major competitive challenges faced by the manufacturing businesses.
- Identify and describe types of manufacturing systems.
- Analyze current trends in manufacturing systems.

MNC05.01.02 Describe how manufacturing businesses manage performance.

Sample Indicators
- Explain how financial performance is measured.
- Explain how market performance is gauged.
- Explain how service and internal operations performance is determined.
- Explain how compliance and performance related to health, safety, and environment are evaluated.

MNC05.01.03 Describe how changes outside the manufacturing business impact the manufacturing business.

Sample Indicators
- Explain the impact of economic changes.
- Explain the impact of social changes.
- Explain the impact of technology changes.

MNC05.01.04 Explain the role of risk management in reducing risks and improving performance in manufacturing businesses.

Sample Indicators
- Explain the objectives of risk management programs.
- Explain the major types of loss exposure for manufacturing businesses.
- Explain the approaches for managing organizational risks.

MNC05.01.05 Identify the roles and functions of government in regulating and supporting manufacturing businesses.

Sample Indicators
- Explain the roles in regulating domestic operations.
- Explain the roles in regulating international operations.
- Explain the roles in managing the infrastructures of manufacturing businesses.
- Explain the roles in health, safety, and environmental management.
MNC05.02

Analyze and summarize how manufacturing businesses improve performance to demonstrate an understanding of various methods for enhancing production.

MNC05.02.01 Describe how manufacturing businesses manage customer relationships.

Sample Indicators
- Identify needs and requirements of internal and external customers.
- Describe customer satisfaction and fulfillment of customer requirements.
- Explain how manufacturing businesses respond to customer problems and complaints.

MNC05.02.02 Describe how planning and budgeting are used to accomplish organizational goals and objectives.

Sample Indicators
- Explain how work plans and budgets are used to allocate people and resources.
- Identify reports used to track performance and resource and explain how they are used.
- Explain how plans and budgets are revised to meet goals and objectives.

MNC05.02.03 Explain how planning is used to improve overall business performance.

Sample Indicators
- Identify and describe the most critical performance problems that manufacturing businesses typically face.
- Describe how improvements are identified.

Cluster Topic MNC06

SAFETY, HEALTH AND ENVIRONMENTAL: Understand the importance of health, safety, and environmental management systems in organizations and their importance to organizational performance and regulatory compliance. Follow organizational policies and procedures and contribute to continuous improvement in performance and compliance.

MNC06.01 Maintain safe and healthful working conditions and environment to ensure employee safety.

MNC06.01.01 Assess workplace conditions according to specified safety and health requirements.

Sample Indicators
- Identify the types of risk of injury/illness at work.
- Identify those who are susceptible to risk of injury/illness at work.
- Describe ways to positively impact occupational safety and health.

MNC06.02 Understand employee rights and responsibilities and employer obligations concerning occupational safety and health.

MNC06.02.01 Demonstrate knowledge of rules and laws designed to promote safety and health and their rationale.

Sample Indicators
- Identify key rights of employees related to occupational safety and health.
- Identify the responsibilities of employers related to occupational safety and health.
- Explain the role of government agencies in providing a safe workplace.

MNC06.03 Assess types and sources of workplace hazards in order to maintain safe working conditions in a manufacturing business environment.

MNC06.03.01 Demonstrate methods to correct common hazards following appropriate safety procedures.

Sample Indicators
- Identify and describe common hazards in the workplace.
Identify and describe major sources of information about hazards in the workplace (e.g., MSDS, work procedures, exposure control plans, training materials, labels, and signage).

Identify sources of combustible/flammable materials, fire and emergencies to establish a fire safe environment.

Interpret safety signs and symbols.

**Control workplace hazards in order to maintain safe working conditions in a manufacturing business environment.**

**MNC06.04**

MNC06.04.01 Demonstrate safe workplace practices that promote personal and group health.

*Sample Indicators*
- Identify procedures necessary for maintaining a safe work area.
- Identify methods to correct common hazards.
- Identify methods for disposing of hazardous materials.
- Demonstrate principals of safe physical movement to avoid slips, trips, and spills.
- Inspect and use protective equipment (PPE).

**Summarize safety, health, and environmental management systems to build an understanding of compliance with governmental policies and procedures for manufacturing businesses.**

**MNC06.05**

MNC06.05.01 Identify the major federal and state regulatory areas.

*Sample Indicators*
- Identify specific health and safety laws and regulations that impact manufacturing and the major topics they address.
- Identify specific environmental management laws and regulations and the major topics they address.

MNC06.05.02 Explain how government agencies ensure compliance with environmental regulations and promote improved performance.

*Sample Indicators*
- Provide examples of the major regulations and types of data used by government to measure and monitor performance.
- Provide examples of how manufacturing organizations ensure their compliance.
- Provide examples of consequences that manufacturing organizations suffer when they fail to comply.

MNC06.05.03 Demonstrate workplace activities that comply with safety, health, and environmental policies and procedures.

*Sample Indicators*
- Promote and maintain knowledge of organizational safety, health, and environmental management policies and procedures.
- Follow organizational policies and procedures.
- Educate and orient other workers.
- Maintain a safe work area.
- Identify, describe, and report workplace hazards.
- Perform and participate in regular audits and inspections.
- Provide and maintain documentation needed for compliance.
- Conduct and participate in accident/incident investigations.

MNC06.05.04 Develop plans to improve safety performance.

*Sample Indicators*
- Use structured problem-solving process to develop improvement plans.

No additional statements in this topic beyond those found in the Essential Knowledge and Skills Chart.

Cluster Topic MNC10 TECHNICAL SKILLS: Use the technical knowledge and skills required to pursue the targeted careers for all pathways in the career cluster, including knowledge of design, operation, and maintenance of technological systems critical to the career cluster.

MNC10.01 Describe and employ technical skills and knowledge required for careers in manufacturing in order to perform basic workplace activities common to manufacturing.

MNC10.01.01 Demonstrate the planning and layout processes (e.g., designing, print reading, measuring) used in manufacturing.

Sample Indicators
MNC10.01.02 Summarize how materials can be processed using tools and machines.

Sample Indicators
MNC10.01.03 Describe various types of assembling processes (e.g., mechanical fastening, mechanical force, joining, fusion bonding, adhesive bonding) used in manufacturing.

Sample Indicators
MNC10.01.04 Explain finishing processes (e.g., types of finishing materials, surface preparation, methods of application) used in manufacturing.

D. PATHWAY KNOWLEDGE AND SKILLS
The following knowledge and skill statements apply to all careers in the Production Pathway. The statements are organized within eight topics.
**D. Pathway Knowledge and Skills**

**MNPB01 QUALITY PROCESSES**

MNPB01.01 Recognize and correct production processes to assure that products meet production quality standards.

**MNPB01.01.01** Communicate quality problems following the appropriate reporting process.

*Sample Indicators*
- Review quality problems with production operators.
- Communicate quality problems promptly to appropriate parties.
- Use established processes to document quality problems.
- Summarize defect trends and report them to appropriate parties.

MNPB01.01.02 Suggest or perform corrective actions to correct quality problems.

*Sample Indicators*
- Make minor quality issues/adjustments immediately.
- Document quality issues or adjustments properly.
- Make sure that recommendations for action are clear and concise, and supported by data.
- Make recommendations in a timely way to appropriate parties.
- Document follow-up activities and indicate that corrective action was taken.
- Document product quality following corrective action.

MNPB01.01.03 Determine appropriate action for sub-standard product.

*Sample Indicators*
- Execute quality control procedures to catch sub-standard products promptly within the defined quality systems.
- Document decisions regarding sub-standard products for future retrieval.
- Process sub-standard products according to company policy.
- Distribute documentation required for customers to appropriate parties.

MNPB01.01.04 Identify trends using records of process outcomes.

*Sample Indicators*
- Maintain records on quality process to appropriate standards.
- Chart outcomes of quality processes according to appropriate methods and standards.
- Check data on quality processes for accuracy.
- Analyze quality process performance data to identify trends.
- Report quality process performance data to appropriate parties in a timely way.

MNPB01.01.05 Recognize needed adjustments using records of process outcomes.

MNPB01.01.06 Identify performance and training issues.

MNPB01.01.07 Prepare reports regarding performance and training issues.

MNPB01.01.08 Assess the affect of performance and training issues on production quality.

MNPB01.01.09 Implement closed-loop corrective action to provide for ongoing production feedback.

*Sample Indicators*
- Document evidence of corrective action in a timely manner.
- Report change resulting from the corrective action to appropriate parties in the correct format.
Use spot checks to verify implementation of the corrective action.
Store reports properly for the required amount of time.
Perform ongoing audits to optimize the outcomes of the corrective actions.
Examine previous documentation on similar process issues to identify possible solutions.

MNPB03 SAFETY
MNPB03.01 Summarize and employ safety protocols to maintain a safe and productive production workplace.

MNPB03.01.01 Perform environmental and safety inspections following local, federal and company regulations.

Sample Indicators
- Identify, report and monitor potential hazards in the workplace.
- Take corrective action to correct potential hazards.
- Review health, safety, and environmental documentation and policies thoroughly and regularly.
- Ensure that inspections meet all relevant, health, safety, and environmental laws and regulations.
- Complete inspections according to company schedule and procedures.
- Document inspection records and store them correctly.

MNPB03.01.02 Perform emergency drills as part of an emergency response team.

Sample Indicators
- Confirm that first aid training and certification on emergency and first aid procedures are complete and up-to-date.
- Comply with company and regulatory policies and procedures to respond to emergencies.
- Document emergency drills and incidents according to company and regulatory procedures promptly.

MNPB03.01.03 Identify unsafe conditions according to safety standards.

Sample Indicators
- Identify, report, and document conditions presenting a threat to health, safety, and the environment.
- Identify corrective actions.

MNPB03.01.04 Implement corrective actions to follow safety protocols.

Sample Indicators
- Consult appropriate parties about corrective actions and take corrective actions following company procedures promptly.
- Track and report ongoing safety concerns until corrective action is taken.

MNPB03.01.05 Implement safety orientation to train other employees in safe practices and emergency procedures.

Sample Indicators
- Verify that all topics and procedures are covered in orientation to facilitate employee safety.
- Observe orientation to ensure that it makes clear the need and processes for employees to raise safety concerns, ask questions, and receive additional training.
- Use company requirements to document orientation.
- Verify that orientation meets all relevant laws, policies, and regulations.
- Deliver safety instruction and updates on a regular schedule.

Pathway Topic

MNPB04 QUALITY IMPROVEMENT
MNPB04.01 Employ production process audits and inspections to maintain quality and encourage continuous improvement.

MNPB04.01.01 Perform periodic internal quality audits using company audit procedures.
Sample Indicators

Perform audits in accordance with company and other required schedules and procedures.

Complete all audit forms correctly in a timely manner and forward to the correct parties. Verify that audit data is relevant and correct.

Verify that conformance to quality standards are properly assessed and documented. Include observation of operations to ensure performances meet specifications when appropriate.

MNPB04.01.02 Check calibration of gauges and other data collection equipment.

Sample Indicators

Implement calibration schedule according to specifications.
Make thorough careful observations and review documentation to check instrument certification.
Recalibrate out-of-calibration instruments immediately or refer them to the appropriate parties for recalibration or repairs.

MNPB04.01.03 Recommend process improvements based upon audits and inspections.

Sample Indicators

Use observation and data analysis to generate potential improvements.
Communicate suggestions that are measurable and have data-driven benefits to the company, its customers, and employees.
Use proper procedures and documentation to make suggestions.
Assure that all data is reviewed prior to making suggestions.

MNPB04.01.04 Inspect materials at all stages of process to determine quality or condition.

Sample Indicators

Sample and inspect in accordance with the schedule and procedures.
Select correct inspection tools and procedures and use them correctly.
Inspect materials against correct specifications.
Identify materials not meeting specifications.
Take corrective action on out-of-specification material.
Document inspection results properly and report them to the correct parties in a timely manner.

MNPB04.01.05 Document the results of quality testing using reliable data.

Sample Indicators

Check data forms for completeness and accuracy.
Evaluate and interpret information correctly.
Forward data to correct parties.
Select and use the appropriate analytical tools.

MNPB04.01.06 Adjust processes to restore or maintain quality based on data from audit or inspection reports.

Sample Indicators

Identify appropriate correction actions and make sure that approvals are received when needed.
Make adjustments to eliminate deviations and bring the process back into control.
Make adjustments and document them in a timely manner.

Pathway Topic
MNPB05

MNPB05.01 Communicate with co-workers and/or external customers to ensure production meets business requirements.
MNPB05.01.01 Communicate safety, training, and job-specific needs using effective speaking and presentation skills.

Sample Indicators
- Ensure that safety issues are understood and safety practices are being used.
- Explain the significance of on-the-job issues and concerns being discussed and quickly resolved.
- Identify current and future training issues in a timely way.
- Verify that communication shows knowledge of both customer and business needs.
- Be clear and relevant with communications related to safety, training, and job-specific needs.
- Communicate in a timely and accurate manner to the correct parties.
- Evaluate, track, and report back safety, training, and job-specific issues to original communicator.
- Track and document communications related to safety, training, and job-specific needs.

MNPB05.01.02 Communicate material specifications and delivery schedules in a timely and accurate manner.

Sample Indicators
- Make sure that communication reflects knowledge of material specifications.
- Communicate delivery schedules clearly.
- Make sure that communication shows knowledge of both customer and business needs.
- Make sure that communication is clear and relevant to material and delivery issues.
- Communicate in a timely and accurate manner to the correct parties.
- Evaluate, track, and report back material and delivery issues to original communicator.
- Track and document material specifications and delivery schedules.

MNPB05.01.03 Communicate production requirements and product specifications.

Sample Indicators
- Make sure that communication reflects knowledge of production requirements, levels, and product specifications.
- Initiate communication to meet production requirements, product specifications, or other customer or business needs cross-functionally as required.
- Notify all parties of production issues and problems in a timely way.
- Make sure that communication shows knowledge of both customer and business needs.
- Make sure that communication to production and products is clear and relevant.
- Evaluate, track, and report production and product issues back to original communicator.
- Track and document communications related to production requirements and product specifications as appropriate.

Pathway Topic
MNPB06 WORK TEAMS

MNPB06.01 Coordinate work teams when producing products to enhance production process performance.

MNPB06.01.01 Provide training to other employees based on training needs.

Sample Indicators
- Provide cross training as appropriate.
- Assess training needs on a regular basis.
- Identify new requirements and training issues.
- Use varied approaches to achieve training goals.
Document training outcomes.

**MNPB06.01.02 Develop team goals to enhance performance.**

*Sample Indicators*
- Make goals specific, measurable, and achievable.
- Align team goals to customer and business needs.
- Focus team goals to meet team objectives.
- Document team goals and share information with all parties.

**MNPB06.01.03 Make job assignments to avail the use of the best personnel in key assignments.**

*Sample Indicators*
- Make job assignments to match the skills needed for the work to be done and to maximize the use of available skills.
- Make job assignments to ensure that business and customer needs are met.
- Confirm that workers are notified of assignments effectively.

**MNPB06.01.04 Coordinate workflow with team members and other work groups.**

*Sample Indicators*
- Make sure that production schedules are met effectively.
- Notify team members of schedule requirements in a timely way.
- Make sure that production workflow runs efficiently.
- Take necessary action to minimize downtime.
- Explain the significance of relationships with others in facilitating workflow.
- Verify that workers actively participate in meetings and problem-solving groups.

**Pathway Topic**

**MNPB07 EQUIPMENT SAFETY**

**MNPB07.01 Demonstrate the safe use of manufacturing process equipment in order to protect personal well-being in the production work environment.**

**MNPB07.01.01 Train others to use equipment following safe production practices.**

*Sample Indicators*
- Give new operators a complete orientation of equipment.
- Make sure that all important information regarding equipment safety is communicated clearly and effectively.
- Make sure that maintenance workers obtain certification to train others in technical skills and knowledge where applicable.

- Make suggestions regarding training materials and content to appropriate parties.
- Use evaluations and feedback to improve training materials and methods.
- Make sure trainees have the correct tools to do the job during training.

- Conduct post-training evaluation to assure that workers can operate equipment safely.
- Use training and facilitation techniques appropriate for the audience.
- Document the quality and effectiveness of training appropriately.

**MNPB07.01.02 Recommend processes and procedures to support safety and effectiveness in the work environment.**

*Sample Indicators*
- Consult health and safety representatives to develop suggestions.

- Solicit operator feedback for use in creating a safer, more effective work environment.
- Make sure suggestions for training improvement are documented and sent to the appropriate parties.

- Make sure that content of suggestions addresses safety, quality, and productivity issues.
MNPB07.01.03  Maintain, install, and repair equipment following required safety and health requirements.

Sample Indicators  Make regular safety communications to all employees.
                  Review job safety analyses regularly according to company policy.
                  Follow hazardous materials procedures and policies such as Material Safety Data Sheet and “right to know” accurately.
                  Perform environmental testing of workplace on a regular basis as required by company policy or regulation.
                  Audit equipment to ensure there are no by-passes of safety guards.
                  Verify that regulatory and company safety procedures are followed including lock-out & tag-out, confined space, and ergonomics.
                  Follow good housekeeping procedures.
                  Verify that safety and personal protective equipment is available, performs correctly, and has current certification.

MNPB07.01.04  Monitor equipment and operator according to workplace safety and compliance with both company and national regulations.

Sample Indicators  Perform monitoring responsibilities regularly.
                  Report out-of-compliance or unsafe conditions immediately.
                  Take corrective action on out-of-compliance or unsafe conditions.
                  Check equipment to ensure it is operating according to specifications.
                  Check tools for compliance with specifications.
                  Forward accident and injury data to appropriate personnel for inclusion in OSHA recordables.
                  Gather information on equipment use from operators to reveal existing or potential problems.
                  Adjust equipment and processes as required.
                  Document all monitoring data accurately.

Pathway Topic  MNPB08  CUSTOMER NEEDS

MNPB08.01  Produce a product that satisfies a customer’s desires to demonstrate the relationship between production processes and meeting customer needs.

MNPB08.01.01  Identify customer needs through an in-depth investigation.

Sample Indicators  Meet those needs that differ between internal and external customers as well as those that both share.
                  Maintain contact with customer about the product aspects and its specifications to ensure thorough understanding of needs.
                  Review, maintain, and communicate customer needs and specifications.
                  Address issues preventing customer needs from being met proactively.

MNPB08.01.02  Verify that needed resources are available for the production process.

Sample Indicators  Use work orders when handling raw materials, while setting up of tools and equipment, and when scheduling workers to maximize productivity.
                  Report any discrepancies related to raw materials, tools/equipment, and workers abilities/availability properly.
                  Identify consequences of not reporting discrepancies in production.

MNPB08.01.03  Set up equipment for the production process.

Sample Indicators  Make proper repairs and adjustments to equipment prior to putting into service.
                  Verify that set-up meets process specifications of both internal and external customers.
Verify that the first piece or production meets both product specifications and production capacities.
Document set-up procedures to ensure repeatability.
Identify possible consequences resulting from failure to meet ergonomic and other relevant health, safety, and environmental standards.

MNPB08.01.04 
**Monitor fabrication of the product using process control data.**
*Sample Indicators*
Make the manufacturing process cycle time meet customer and business needs.
Identify possible consequences resulting from failure to perform operations safely.
Verify that the product meets customer specifications.
Complete, maintain, and forward product and process documentation to proper parties.
Verify that production operations comply with all health, safety, and environmental policies and procedures.

MNPB08.01.05 
**Inspect the product to verify that it meets specifications.**
*Sample Indicators*
Verify the calibration of the testing equipment.
Follow the established sampling plan and inspection policies/procedures.
Identify product and production process that do not meet specifications.
Complete inspection documents accurately and forward them to proper parties.
Follow appropriate testing procedures.
Identify and communicate adjustments needed to bring the production process back into specification.
Make necessary adjustment in the manufacturing process in a timely manner.

MNPB08.01.06 
**Document product and process to assure formal compliance with customer requirements.**
*Sample Indicators*
Write compliance documents legibly in the appropriate format and store them in a safe, secure place.
Complete compliance documentation, obtain “sign off,” and forward to the proper parties.
Label products for compliance and non-compliance appropriately.

MNPB08.01.07 
**Prepare a final product for shipping or distribution according to meet specified quantities and include proper documentation.**
*Sample Indicators*
Package materials to meet packaging and shipping specifications (including proper labeling).
Complete package documentation and customer shipping instructions to accompany the product to the next destination.
Communicate product availability to the proper parties in a timely manner.
Check relevant information such as quantity, destination and packaging instructions against the work order.
Verify that product is correctly stored or staged for shipping.
Explain the significance of following all laws and regulations related to labeling, packaging, and transport.
Verify that material handling procedures are followed to prevent product damage.
